

Daily Lesson Plan

Class: General Studies and IT		Date: 28/9/16	Teacher: Suzanne Kenny
Title of Lesson Security and Confidentiality - The Internet			
Objectives 1) Studnets will gain an insight to the various threats to the Internet regarding security and confidentiality 2) To allow students to research and document information correctly from the Internet.			
<p>Description of Learning Activities Students will be introduced to the various threats to security and confidentiality with regards to the Internet.</p> <p>Plenary: Students gather information on the various topics covered in class. The students will use this in the project which will be assessed.</p>	<p>Assessment Methods Students have a structured report to produce regarding the Internet. One section of this structured report must include information on security and confidentiality regarding the internet. Students will have a deadline regarding this and all must adhere to it.</p>	<p>Links to equality & diversity differentiation / link to assessment</p> <p>Equality and diversity: Gives students the time to research and gather relevant information that they will use in their project. This will reflect the students capability to use the Internet to gather information correctly</p> <p>Differentiated groups: Students can work on their own and produce the required information to their own individual level and use their own English</p> <p>Link to assessment: This lesson gives them time to research and document the information and produce in the correct format outlined by the Tutor. The information that they gather will be used in the future to produce a structured report on the Internet which has a weighting of 40% of the total assessment for that module</p>	
Stretch and Challenge and Extension Activities : Students will email the final document containing the information to the Tutor at the end of the class. Students will put this information into their structured report and reference it correctly.			
<p>Learning outside the classroom Due in : Students will use this information for their structured report which is worth 40% of all module</p>	<p>Learning outside the classroom set for next lesson: Students will be required to gather further information on the topics outlined by Tutor at the end of class. Students must have this emailed to Tutor prior to next class.</p>
